

Ci forum webinars allow members and guests to get together in a virtual environment to learn, share and grow - by computer, tablet, smart phone or even your landline.

**The next Ci forum Webinar is on
9 February 2017**

**Applying statistical thinking to
your improvement projects**

In this webinar we will discuss the tremendous value and insights that data analysis and statistical thinking can bring to your improvement efforts - you'll learn about the basic and more advanced tools and how they accelerate your improvement efforts and result in more robust improvements.

When is it?

Thursday 9 February 2017
12:30 pm to 1:15 pm NZDST

BOOKINGS ARE ESSENTIAL!

Members and guests of Ci forum are invited to attend at no cost. Simply register at

<https://attendee.gotowebinar.com/register/4471552541224019460>

After registering, you will receive a confirmation email containing information about joining the webinar. For more information please contact John McTaggart:
